

Progetto Made in Italy

Progetto Made in Italy

The project was born in 2015 thanks to three Italian schools: *Datini* from Prato, *Aldo Moro* from Santa Cesarea Terme and *Levi-Montalcini* from Acqui Terme. The aim of the project is basically disseminate Italian views on gastro-tourism. “Made in Italy Project” also represents an extremely important moment for students to be trained and live different realities far from home.

“Made in Italy Project” was first introduced in March 2016 at Prato Council Chambers in the presence of Parliamentary secretary for Department of Education, Mr. Gabriele Toccafondi.

Progetto Made in Italy

The first activity of the Project occurred in Vietnam. Thanks to a memorandum of understanding with Hanoi University, Vietnamese employers could taste Italian menus cooked by our students. Visits to Hotel and Catering Schools were also an opportunity for a peer-to-peer exchange between students.

With the collaboration of Italian Embassy in Hanoi, promotional activities were also carried out.

Progetto Made in Italy

Progetto Made in Italy

2017 has been an important year for “Made in Italy Project”. From October 29th to November 1st the delegation visited Hong Kong, and from November 2nd to 5th was the moment of Bangkok, in Thailand. We had the chance to visit excellent Catering schools where delicious Italian menus could be presented and offer a tasting of locally-grown products from Tuscany and Apulia at Italian Consulate halls.
